

Although rare, please contact a healthcare professional at the first signs of infection/reactions such as swollen eyes, severe discomfort, etc.

- Recommended Aftercare:
 - Follow the aftercare listed below or the service results will not retain/become undesirable:
 - Do not use oil-based or strong makeup removers other than Elleebana Makeup Remover after a Brow Lamination+Tint
 - Avoid touching, stroking, or playing with brow hairs - please try to leave them alone as much as possible
 - Avoid wetting the brow hairs within the first 48 hours
 - Do not sleep on your face or your side where your brow hairs are rubbing against the pillow encouraging the brows into a new direction. If you wear an eye mask to sleep, avoid using this for at least 48 hours post the treatment
 - Avoid using brow growth serums, retinols, AHA's, BHA's, Vitamin A, steroid creams or skin thinning treatments prior and post the service for at least 48 hours
 - Avoid exfoliation of the skin throughout & around the brows for 48 hours
 - It is important to avoid hot steam from showers, saunas, dishwashers or even heat from ovens. Reducing this exposure is recommended wherever possible
 - The use of a styling product and nourishing product is recommended Elleplex Aftercare doubles as both a nourishing product and a styling product
 - After wetting the brow hairs (after the initial 48 hours) brushing them gently back into place with a brow brush is necessary
- Recommended Aftercare Maintenance Products:
 - Elleplex - advanced aftercare home conditioner to strengthen & nourish brows
 - Elleebana Makeup Remover - gentle, non-oil based eye makeup remover that is safe to use post an Elleebana Brow Lamination service and gentle on brow/lash tint services.
 - A professional brow brush - for daily brushing/styling of brow hairs post Brow Lamination service
 - Clear Brow Gel or Brow Styling Wax - for styling of brows and holding brow hairs in place
- Recommended Follow-up Appointments:
 - Brow Shaping + Brow Tint in 4wks
 - Brow Lamination in 8wks - 12wks
 - Brow Laminations will not be done less than 8wks after your previous Brow Lamination session, as it is too drying. Depending upon your brows, this can vary of up to no less than 12wks between sessions - your professional will advise you on what is the correct timeframe for you
